SCHUSTER macht die freizeit schon. In English its a very nice catalog of every thing for outdoor people, just received.

If you cannot read it there are a lot of pictures of beautiful girls to look at and in case you may be interested in any thing listed in the catalog Paula Vehrs would probably aid one in understanding that all the letters mean as well as to understand their method of telling one how much of what they want for different items. At the Lodge.

FOR SALE

Brand new pair Red Wing Ladies Boots. Size 8 narrow - \$10. Mrs. Leila Chase. Phone 344-0268

Dear Bea:

I wish to thank you and all the Board members for your nice letter. Toil and sweat went into every Bulletin, but perhaps the most important, a little love.

And as sugar beet growers of Idaho would say - "I enjoyed raising cane too"

I haven't really dropped anything - I have just funneled my efforts in other directions. Of course the Obsidians have been very important to my life and always will. And remember, if I am needed for any activities, indoor or out, (or even sugar beet farming) you know I am not very far away.

With affection,
Bob Cox

BROCK EVANS

As most of you know is our Northwest Outdoor Club Representative. The Obsidians contribute to his upkeep. It is not the policy of your Editor to take up too much space about his work nor to bore you all with too much conservation. However do feel that you that are interested to know some of the things that he is doing and having space in this issue to give you his latest letter.

RE: HELL'S CANYON AND FRENCH PETE CREEK ACTION REQUESTED.

We have been doing battle together over these two very significant Oregon issues for a number of years now. We have always felt that time was on our side, but the road has been long and difficult and there have been many dark moments.

Now, apparently, we are to have a ray of light; and if we all can act promptly we may be able to commence the long road towards final protection by legislation of these vital areas.

As you know, Senator Packwood is the sponsor of legislation to create a Hell' Canyon-Snake National River, to protect some 726,000 acres of the magnificent Snake, Imnaha, Grande Ronde, and Lower Salmon River Canyons and their associated uplands. After a long hearing in Wash. D. C. on this legislation, Senator Alan Bible of the Interior Committee indicated to Senator Packwood that there is a chance that there will be field hearings next year.

And, in a subsequent letter in response to a request by Sen Packwood, Sen. Henry Jackson, Chr. of the whole Interior Committee has promised that there will be hearings on Sen. Packwood's bill for a French Pete Intermediate Recreation Area of 19,000 acres "early" next year.

The only problem is that with the Hell' Canyon legislation, there is no guarantee of filed hearings; and with the French Pete case, there is no assurance that there will be field hearings. There may be hearings in Washington, D. C.

It is up to us to do what we can to make sure that we have field hearings, not just in the local areas, but also in major Oregon cities, (where most of the people live) on both of these important issues. Hearings held back in Wash. D.C. won't mean much, because only the timber lobbyists will be able to afford to go back and, in the case of Hell's Canyon

even the local people in Eastern Oregon no longer want the dams, it is still important to hear the sentiments of the vast majority of Oregonians who also love and use this area.

Therefore, we must act. I would urge each one of you who cares about these issues to immediately write Sen. Henry M Jackson (Senate Office Building, Wash. D. C. 20510), Chairman of the Senate Interior Committee, and urge that field hearings be scheduled for both of these pieces of legislation, in major Oregon cities next year.

Thank you for what you can do. We've come a long way together on these vital issues, and I think at last we have a real chance of saving these places we love".

MORE CRITICISM TO EDITOR

He was criticised for his mentioning the change of the Christmas tree trip to Sunday from the Monday reported in the November issue account of Monday being a Jewish Holiday. And he thot that that was as good a reason as any he could think of to cover up an error.

And he was also criticised for not mentioning in his article about some of the problems to be overcome in regards to how we got our Lodge Building in not telling that a lot of people who were not Chiefs also contributed to this fund

I thot that I had specifically mentioned in this article that a lot of people who were not Chiefs had contributed.

It was pointed out to me that one lady had contributed a hundred dollars to the fund. Now I know who this lady is, but I also know that no donations were made for the purpose of advertising this fact. That all donations and contributions of money, time and materials were made for one purpose only, and that was to erect a Club House that could be called ours.

And the whole purpose of the article was to enlighten the newer members of how we got what we have. And if any of the newer members can come up with ideas of how to get more out of what we have we feel sure that the Board will give an earnest ear to what they have to say.

Am sometimes filled with the thot of turning the whole thing of editorship over to others, but have read a statement of John Rogers, managing editor of the Denver Post. He says, "If we in Journalism can't take criticism we might as well close up shop.

ANYWAY, I KNOW THAT THERE ARE SOME PEOPLE WHO READ THE BULLETIN

JOHN DAY FOSSIL BEDS NATIONAL MONUMENT

Legislation has recently been introduced to create a National Monument to include three state parks in Central Ore The Thomas Condon-John Day Fossil Beds State Park, the Clarno State Park and the Painted Hills State Park. Within the Thomas Condon-John Day Fossil Beds is one of the most complete records of mammalian evolutionary developments yet found; The Clarno Beds contain rare nut and seed fossils; and the Painted Hills are a valuable geological record as well as a scenic area. The present misuse of these parks indicate the urgent need for full federal protection under the Antiquities Act, thru designation as a National Monument.

Therefore, The Federation of Western Outdoor Clubs supports the enactment of legislation which would provide protection of these areas through the establishment of the John Day Fossil Beds National Monument.

The above from the Federation of Western Outdoor Clubs policy statement just issued to the Obsidians

HISTORY OF THE OBSIDIANS

BY Ray Sims

No. 91

The year of 1963 ushered in with a New Years party at "Camp Baker", probably the last time away from the Obsidian Lodge.

This was called "Camp Lane" also. After a hearty breakfast the next morning, a drive was made towards the coast, but a trail trip was planned but because of the '62 Columbus Day Storm, too many fallen trees were blocking the way.

Catherine Dunlop won the "Liars" contest at the party. And also was chairman for the week-end.

At the February Board Meeting, even this early, Mel Jackson reported to get support in fighting the thgt of turning the "Coburg Caves" into a gravel pit.

Also Gene Rnard wrote that the "Islands" have as their New Year also their "Birthday" and shot off "fire works" like the 2nd coming of "Pearl Harbor".

The Club was also saddened by the passing of Paul Weiser on January 16th, 1963, as he was "One of the Regulars".

"Glacier Park" was again to be the site of the annual "Summer Camp" as this was also the "site" in 1953. "Camp Markley" would be on the "shores" of Beautiful St. Marys Lake from Aug. 4th to 18th, "1963".

ARTHUR GODFREY letter No. 4.

New York, N.Y. 10022

Dear Mr. Godfrey:

Columnist Morgenstern's visious attack on a legitimate industry in the May issue of Newsweek reminds me that I have not as yet received a reply to my letter of Feb. 1, 1971 to you.

Your Mr. James A. Folsom wrote me on May 6, 1971 stating that my original letter was misplaced, or failed to reach your office, but he acknowledged the copy I sent him and said you would reply.

I am very anxious to hear from you.

Sincerely yours

(Mrs) Fern Enke

CHEMEKETANS have a Wilma Moore in their membership. Hope she is as nice as our Wilma Moore.

EGGS CRACK? when being boiled? You've tried putting in cold water? Adding salt to the water? And everything you have heard about? Just poke a hole in the big end with needle or pin. Recommended by Mrs. Rock, Mrs. Island, Mrs. Leghorn, Mrs. Minorca and Mrs. Banty.

DOROTHY TOWLERTON er aa Medill wishes to extend her thanks to all who called enquiring about her health during her recent lying in period.

LETTER No. 5

Having room to spare in this issue will complete this series. I got a lot of laughs out of it and hope you do to.

Dear Mr. Godfrey:

It is becoming apparent that you just do not want to discuss what you put out over the air in your radio broadcasts--- could be because it is completely "phony" to begin with.

All I am asking for is the answer to a question--just where did you get your information for your broadcast on Feb. 16 in which you lead your listeners to believe that the last redwood tree is being cut.

Also an invitation was extended to you to come out and visit us in the big tree but you apparently do not feel that this country is worth visiting--altho it is worth putting out false information'bout Would appreciate a reply by return mail.

Sincerely yours

(Mrs) Fern Enke

Dear Mrs. Enke:

Your latest letter has arrived. Madam do us a favor. Make this your last one. Anyone who writes a letter in the tone that you have written makes it apparent what kind of person she obviously is.

Please understand, and I am sure you do have difficulty in understanding, that we in this office are under pressure to handle things of far more consequence than the picayune bit of information which you asked us to act upon. Your point is made and Mr. Godfre has been informed that Redwood trees are still being cut and will continue to be cut under one of the most fantastic logging programs ever recorded in history.

Again, please don't bother to reply. I can't think of anyone in this office who cares to read any further correspondence from you.
