

OCTOBER POTLUCK

Plate Tectonics and the Landscapes of the Pacific Northwest

The same geological forces that threaten our lives with earthquakes and volcanic eruptions also nourish our spirits by forming spectacular mountains, valleys, and coastlines. Dr. Bob Lillie, a geology professor, park ranger and graphic illustrator, relates this "Beauty from the Beast" story of the Pacific Northwest by highlighting the exquisite scenery in national, state, and local parklands.

October Obsidians Potluck

Friday, October 27, 2017
