

OBSIDIAN EXPLORATALK

Oregon Waterfowl

What are those odd ducks and geese at the Park? Do all waterfowl migrate? Do they mate for life? Where are some good spots to see these birds? We'll answer these questions and share more than you want to know about waterfowl. Join local naturalist and fellow Obsidian, Rick Ahrens, who has been birding since he was knee high to a Nene Goose, for this lively and informative presentation.

Tuesday, September 18, 7:00pm at the Obsidian Lodge
