

No Special Obsidian COVID-19 Protocols in place!
(Clarifications for leaders, sign-ins, vaccination status and carpooling)

We have gone back to having trip participants sign the acceptance of risk and liability release form. On this liability waiver it clearly states that the leader can deny trip participation to anyone for safety reasons; this includes vaccination status.

As with the past Covid protocol, the Club and the trip leader are not formally organizing carpooling. The information available online regarding drivers and those needing a ride is there for two purposes. First, to let leaders know how many people they can expect to make the trip. Secondly, to provide potential participants information so they can arrange rides before the trip if they want to.
